## > HUMMER™ design

The MEV HUMMER™ HX-T™ Limo is the only proportionally correct licensed cart. The HX-T™ Limo design has been detailed throughout, from the signature HUMMER™ louver grille, custom wheels, door sills, styled seats and floor mats. All matching features have been considered with the trunk top, door hinges, windshield surround, injection moulded LED lights and luxury interior.

## > Technical quality

The MEV HUMMER™ HX-T™ Limo has been manufactured to the highest standard seen within its market; not only are the aesthetics all taken care of so is the unseen engineering; built from a robust lightweight chassis, using advanced electronics and components with hardwearing mechanical parts. The HX-T™ Limo has been assembled to meet rigorous US and European standards.

## > Safety first

LED lights are installed to cover; driving beam, side lights, turn signals, brakes and reversing. Unlike other electric carts in this category the MEV HUMMER™ HX-T™ Limo is fitted with adaptive rear drums and hydraulic front discs brakes for optimum stopping power. The HX-T™ Limo has a horn for attention!

## > HX-T™ Limo performance

Distinct from traditional 48v systems on today's market the HX-T™ Limo utilises a 72v supply powering an efficient AC brushless motor giving impressive torque through to full speed. From the multi region approved board Delta-Q™ charger the AC system provides greater efficiency giving the HX-T™ Limo an impressive 40 + mile range per charge. The fully adjustable A-Frame front and semi-independent rear suspension has been built to automotive standards to ensure a comfortable ride.

## > Distinguished optional accessories

MEV™ have built the HX-T™ Limo with an impressive choice of features included as standard. However, to ensure that each MEV HUMMER™ HX-T™ Limo has its own unique appeal we offer optional accessories ranging from bespoke paint to carbon fibre dashboards and leather interior colour choices. On top of these optional accessories the HX-T™ Limo also comes in a choice of 5 standard automotive finish colours.
